

# Syllabus Hunt

Use the course syllabus to fill out this scavenger hunt! Please type your responses into a word document, and submit that on UNM Learn. Be sure to number your responses 1, 2(a), etc. so I know which question you're answering. If you get stuck, post a question on the forums. Chances are you're not the only one!

1. *How much of your grade is calculated from*
  - (a) *..homework?*
  - (b) *..projects?*
  - (c) *..quizzes?*
2. *You can submit homework and quizzes weekly on UNM Learn. At what URL can you find the homework and quiz problems, a schedule of due dates, notes, and video lectures?*
3. *You're stuck on the second problem in the homework. List what you can do to figure it out (try to list first what you should try first, then what you should try second, etc.).*
4. *About how many hours a week should you schedule weekly on this class?*
